Company Profile

Company Profile

Advt Software Services stands equipped and willing to support you with any web based solutions, graphic requirements, internet marketing or corporate branding solutions you may require. The special customer service that we provide never deviates regardless of the size and capacity of the project at hand. We are a team of highly trained and expert professionals that take great care in ensuring that the final product is always delivered on time every time, within budget and utilizing the finest techniques, technology and creative thinking at our disposal.

Advt Software Services listens carefully to its customers and provides the most user friendly, unique client orientated solutions to maximize the effectiveness of your project. We pride ourselves on our determined work ethic and consistent and friendly communication to guarantee that we 'fine tune' the project until such time as it meets and exceed your expectations.

Services

Website Design

We cultivate a multi-faceted approach towards executing your website project, for designing, developing and deploying contemporary and innovative website solutions. We provide you with different choices to design an effective site by following the 7c framework architected by Rayport and Jaworski.

Web Development

We can fulfill all of your web development requirements, from designing the visuals of your web site, upgrading your current web site, providing you with an easy to use content management system, domain names and hosting, right through to online video, blogging, copy writing and online marketing.

WEB HOSTING

As multiple-domain hosting becomes a more affordable and popular option, hosting shoppers are flocking to those hosts that offer this solution. Since most shared hosting providers offer a multiple-domain hosting choice, clients are utilizing this to their advantage.

Logo Design

A unique logo has multiple objectives. It establishes your company, its identity. A logo creates a lasting impression of your company. A logo also gives solid brand recognition.

E-commerce Features

Effective e-commerce website is about making unique presence and clever use of strong strategy and a robust technology. With experience of developing and managing several top e-commerce websites, we know what works and what doesn't, what results in better conversion and increased ROI for online businesses.

Multimedia presentation

A multimedia presentation differs from a normal presentation in that it contains some form of animation or media. Typically a multimedia presentation contains at least one of the following elements.

SEO

Search Engine Optimization is an effective way to drive traffic to your site for a very low cost per customer. However good rankings are the result of expertise, patience, and hard work. We stick on to the search engine guidelines for search engine optimization.

Internet Marketing Services

Internet Marketing includes SEO and additional online marketing tools you can use to gain the attention of potential customers and the search engines. We offer a wide range of comprehensive SEO and search engine marketing services that will give you incredible results.

Business Card Design

Creative Design and Branding
Although designing for new media is our forte, we believe that branding is a much more holistic and specialist process.
